

Kestrel 140 SOT

NEW

Recreational

Our Kestrel 140 SOT (Sit On Top) is great in warmer waters. A true paddling sit on top, it's incredibly versatile and works great in many different situations. Completely redesigned back deck fittings for 2009, it now features a front and day hatch, netting covered stern storage compartment, water bottle holder and snap on shoulder carry straps. New foot braces are fully adjustable and an extra high seat back and pad provides comfortable back support.
